The above was a recruiting add placed by Ernest Shackleton for his 1914 expedition to Antarctica. Close to 5,000 applicatns applied for the 27 - man team."

Today men are really looking for thier adventure rather than sedation. This evening is such an invitation. You applying??

# The Bridge

A free one day personal growth experience for men.

*If you want something you've never had, then you've got to do something you've never done...*

What if you could move through the obstacles that are limiting your success and the life you truly desire?

Is "domestication" draining your Life Force? You may not know what it is or how it keeps you from breaking free to be your true self and live the life you came to embrace. Without the Primal fire that burns within each man, we are destined to be ruled by our "old story", the one that keep us restricted and safe.

The Hero's Journey is the path inward to face our fears and demons. For those who venture, it is a life of self-discovery and freedom form the past, the old story.

Your Life is Your Hero's Journey; why not take a map along!

In this workshop, we'll explore the following themes  
The Power of Shadow ■ Archetypal Energy ■ Sacred Masculine
